

# **BUILDING A BETTER FUTURE THROUGH TECHNOLOGY**

## **Restoring Workforce Opportunity in New Braunfels**

The New Braunfels Evening Lions Club, in partnership with the New Braunfels Food Bank, is working to restore free adult computer classes that provide essential digital skills for employment and daily life.

Following COVID-19, this program became the **only provider of free adult computer training** in Comal and Guadalupe Counties, serving nearly three dozen individuals each month.

### **THE NEED**

Technology is no longer optional—it is essential for participating in today's workforce.

Our free computer classes were **paused due to outdated equipment** that is now more than **10 years old and no longer supported**. Despite this, demand from the community continues.

### **THE SOLUTION**

We are raising **\$12,000** to modernize the classroom and restore these critical services.

- New laptops for training
- Secure charging and storage system
- Flexible classroom environment

*Today's learners are tomorrow's workforce.*

### **COMMUNITY IMPACT**

We are **raising \$12,000** to modernize the classroom and restore these critical services.

This project will equip the space with **updated laptops and secure charging stations to safely support hands-on computer training and workforce readiness.**

### **FUNDING APPROACH**

This initiative is supported through a diversified funding strategy:

- Grants
- Local business partnerships
- Community contributions
- Dine-in fundraising events
- Leadership contribution from the New Braunfels Evening Lions Club (\$2,000 committed)
