

BUSINESS RETENTION & EXPANSION PROGRAM

A Business Retention & Expansion visit is a scheduled, no-cost, one-on-one key stakeholder consultation for assistance in navigating business incentives, workforce and talent, business connections, permitting, and business climate and data collection. Typically a visit with C-suite, HR, or other business leaders, these visits also include facility tours to allow us to understand how your business contributes to our #MadeInNewBraunfels economy.

Business Connections

Helping you connect and collaborate with industry experts, business support organizations, and key business and governmental leaders. We also plug you in with innovative seminars, classes, and roundtables in our region.

Business Incentive & Permit Navigation

Assisting in identifying and navigating available tax incentives on the local and state levels. We also help guide your business through the process of obtaining permits with the City of New Braunfels and meeting applicable regulations.

Expansion Support

Our business expansion incentive program and other statewide incentives are created to enable your business to activate building expansions, infrastructure improvements, and workforce training programs.

Workforce & Talent

We connect companies with local, regional, and statewide workforce programming to expand your talent pool, coordinate recruitment efforts, and expand skills training. We partner with Workforce Solutions, local workforce development boards, training partners, and more.
